Paul Thanataweenont

Senior Full Stack Engineer @ KruPaul | GraphQL, Mean Stack
Denver Metropolitan Area

Summary

Chronos Interactive has been the foundation of my work for over three years, where I focus on crafting interactive websites that prioritize user experience and drive engagement. By leveraging modern technologies such as React.js, Next.js, and Strapi, I collaborate with design and project management teams to translate wireframes into high-quality, functional web solutions. My efforts have contributed to delivering impactful projects for prominent clients, including Pinnacle Bank and the Colorado Department of Human Services.

Dedicated to creating solutions that align with client objectives, I specialize in seamlessly integrating front-end and back-end technologies. My coding practices emphasize performance, responsiveness, and accessibility, ensuring that each website meets the highest standards. I aim to empower users through intuitive interfaces and dynamic functionality, combining technical expertise with a user-first mindset.

Experience

KruPaul
Senior Full Stack Engineer
2020 - Present (6 years)
Commerce City, Colorado, United States

• Collaborated with design team and project manager to ensure timely delivery of projects using ReactJS, Next.js, Strapi, and Sanity.
• Diagnosed and troubleshooted websites, utilizing modern technologies to enhance user experience and increase traffic.
• Translated wireframes into high-quality code, establishing interactive and dynamic websites for maximum user engagement.

Chronos Interactive
Website Developer
January 2022 - February 2026 (4 years 2 months)

• Proactively collaborated with design team and project manager to ensure efficient and timely delivery of projects.

• Diagnosed and troubleshoot different websites by deploying updated knowledge of modern technologies and techniques.

• Establish interactive and dynamic websites that guarantee high traffic, page views, and maximum user experience.

• Translated designs and wireframes into high-quality code using various frameworks.

Primary client projects: Proofpoint, Pinnacle Bank, Alpha & Omega Semiconductor, Upwing Energy, Colorado Department of Human Services

YouTube
Content Creator
October 2017 - August 2022 (4 years 11 months)
Paul's Academy

• Creating video contents in Chemistry and broadcast on https://www.youtube.com/c/PaulsChemistryThailand

• Teaching Chemistry for Thai high school students with no costs
